Registration Fee

	EARLY BIRD PAYMENT	REGULAR PAYMENT
STUDENT	3000.00	3500.00
PROFESSIONAL	5000.00	5500.00
OBSERVER	2000.00	2500.00

Research Awards

- Best Research Project
- Best Research Paper
- Best Presenter
- Most Promising Young Researcher on SDGs
- Best Project Exhibit on Sustainability

AI Institutional Readiness Forum

A dedicated parallel session for HEIs to:

- Present institutional AI readiness profiles
- Articulate AI research priority agendas
- Propose collaborative research concepts
- Express institutional commitments
- Build a shared AI research ecosystem
- Engage in forward planning and joint initiatives

RISE ICREATE 2026 highlights the expanding role of **Artificial Intelligence (AI)** in strengthening research, innovation, and academic practice across disciplines.

The conference provides a dynamic international platform for:

- AI-integrated research paper presentations
- Student research and project exhibits
- AI Institutional Readiness Forum
- Academic and industry collaboration

Participation is open to all disciplines, provided that AI is meaningfully integrated into the research design, methodology, or project output.

Major Research Program Areas (AI Integration Required)

- Aviation and Aeronautics
- Tourism and Hospitality Management
- Engineering and Technology
- Business, Finance, and Management
- Educational Technology, Social Sciences, Arts, and Humanities
- Criminal Justice Education & Technology
- Health Education & Technology

Suggested Sub-Themes

- AI-enabled safety, sustainability, and efficiency systems
- Intelligent data analytics and decision-support systems
- AI in education, training, and simulation
- Predictive modeling and automation
- Smart infrastructure and digital transformation
- Ethical, inclusive, and responsible AI use
- AI-supported governance, risk analysis, and policy research
- AI in aviation operations, tourism planning, and hospitality systems
- AI applications in justice, security, and forensic studies
- AI-supported health education and emergency response systems

Conference Activities

- Keynote Addresses
- Plenary Sessions
- Panel Discussions
- Research Paper Presentations
- Student Project & Research Exhibits
- AI Institutional Roundtable Discussions
- Research Awards

Conference Focus

The conference emphasizes:

- Responsible and ethical AI integration
- Sustainable and inclusive innovation
- Interdisciplinary and multidisciplinary collaboration
- AI-driven research quality, efficiency, and societal impact
- Development of future-ready research ecosystems
